Perfection has been financially supported
by the European Commission, DG Research,
under the 7th Framework Programme

products.indoorperformance.net

The PERFECTION (products) service has been developed during the PERFECTION FP7 project. It provides a commercial platform, a search engine for locating all sorts of manufacturers, distributors, resellers of products or services that are, in some way, affecting positively a subset of the PERFECTION indicators and are, in this way, contributing to a better Indoor Environment Quality (IEQ). The platform directly brings into contact IEQ product providers and potential product buyers.

IEQ product providers can access the service in order to add information about their products and their contact data while **IEQ product users** can search or express their interest for an IEQ published or desired product.

PERFECTION (products) looks forward to a transparent, long-term relationship with its users.

PERFECTION (products) is committed to the terms of the next page.

EU service for the promotion of indoor environment quality related products and services
